Portrait Guide

WELCOME to Townsley Fine Art, where we combine the classic techniques of the past with the modern spirit of you and your family. Life can come at you quickly, and those special moments can end up passing you by. The connections we have with our family and loved ones shouldn't become distant memories; they should be celebrated through art. You and your family captured perfectly and preserved for future generations. A Townsley is your memories frozen in time. We look forward to having you in our studio.

Sincerely,
S. TOWNSLEY

Our focus is intentional, and each session is thorough and meticulously planned. Before even stepping into the studio, we will have you discuss your vision with one of our talented designers. We want to know all about you and your family so that our gifted artists can capture the unique and special connection you have. Your portraits will be a statement piece in your home. Ones your family will look on with pride, and ones your guests will stop to marvel. You can be confident that every detail will be covered and that your Townsley portrait will be nothing less than stunning.

STYLE

HUMAN CONNECTION

The most unique element of Townsley Fine Art is our *style*. We believe in a deep human connection and we celebrate it through art.

We capture the emotion in your eyes, and the energy of your spirit. We keep the setting simple, the background neutral, and we make you the focus of every portrait.

BLACK & WHITE

Stuart Townsley
Owner/Artist

Our studio works exclusively in black & white, as it evokes strong emotional responses in the subject as well as the viewer. By removing color from the portrait, we can divorce it from reality, and allow the user to project onto the canvas. What

remains is an intimate and extraordinary work of art. Owner and lead artist Stuart Townsley fell in love with black and white portraiture working in the darkroom as a young boy. He has harnessed that passion and developed an

unparalleled look. A Townsley is more than an art piece; it's a family heirloom. His unique style and timeless nature ensures your portraits will adorn your family's walls for generations.

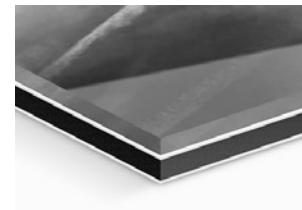

“[Townasley Fine Art] is extraordinarily talented. He is a joy to work with as he truly understands how to capture ‘the moment’. He can portray the setting and emotion of a situation to perfection.”

- Anna O.

We complete each Townasley Fine Art piece with full artistry. A soft rendering is applied to the face, hands, and areas of exposed skin for a classic and artistic look similar to a painting. While the background, clothing, and other areas maintain a sense of photorealism. The result is a brilliant balance of soft, elegant beauty coupled with realistic and vivid detail.

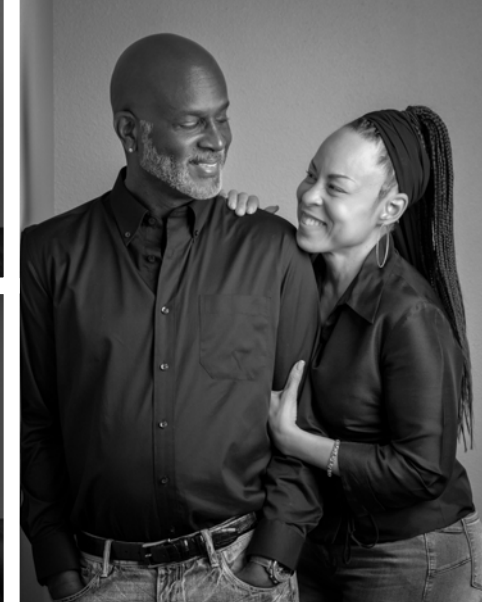

Our *Crystal 4K* finish is encased in acrylic and mounted on a floating recessed frame. This museum quality finish enhances the artistic realism of the piece. This finish has a P99 acrylic front that eliminates any glare, allowing the viewer to fully appreciate the portrait from any angle.

Our *Fine Art* finish is rendered on a rag watercolor paper with hand-deckled edges displaying a rich and vibrant texture. The piece is then floated and framed to reveal a stunning three-dimensional appearance. This portrait made for your home is fit for a gallery.

FINISH

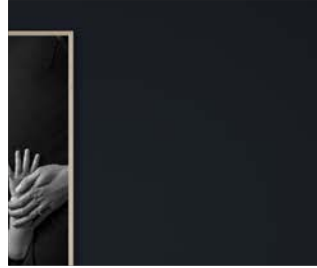

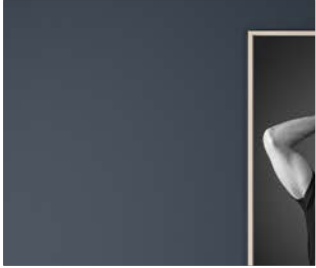

We specialize in relationships. Our artistic approach will capture the intimacy of families, couples, children, and pets. At Townsley Fine Art, we concentrate on making all of our clients feel confident, comfortable, and beautiful. The atmosphere that we have spent decades perfecting has given us the ability to produce stunning results time and time again. Come and experience the best portrait artists in Las Vegas and let's create something beautiful together.

— Call Us at 702-560-5946

“[We] were absolutely delighted with Townsley Fine Art. They provided a true concierge service from start to finish. From calling us several days ahead of our appointment to discussing preparation and wardrobe selections, to the delivery of the finished product... The only difficult part was narrowing down which portrait to choose because everyone looked great in every shot. These portraits are truly a work of art and will be cherished for years to come.”

— Chris, Gretchen, and Alexandra H.
